## Bio - Matrix Attendance Machine

Student Biometrics  
Attendance System  
Precise. Efficient. Reliable.

### ADVANTAGES OF BIOMETRIC TIME SYSTEMS and ATTENDANCE SOFTWARE

#### **NO PROXY ATTENDANCE**

A biometric time attendance system enables you to eliminate employee proxy attendance (or buddy punching). Physiological features like fingerprints are nearly impossible for someone to replicate or share, and thus makes it foolproof.

#### **REAL-TIME DATA**

Modern biometric time attendance systems easily connect with your HR software. This enables you to make reports without any difficulty, based on the latest data for analysis. You don't have to wait for the data to be updated for verification.

#### **PAYROLL ERROR REDUCTION**

Attendance and leave management are connected to payroll, which is very important. A biometric attendance system connected with our software, enables your team to reduce (and even eliminate) errors related to payroll processing.

#### **LOW COST**

Since it is based on physiological features such as fingerprints, you don't have to worry about extra costs of RFID/Chip cards, which turn out to be expensive, as employees tend to lose such cards or in case they abscond, both of which are quite common these days.

#### **NO DATA MANIPULATION**

Attendance and leaves recorded using biometric devices means that your employees cannot manipulate their data for overtime to earn extra money, holidays, and leaves. A biometric attendance system helps you to easily keep a tab on employee activities.

## Automatic Attendance SMS

Biometric attendance systems and Attendance Software are quickly gaining foothold in most offices and institutions, all thanks to an increased need for transparency and accountability, flexible work culture, and a mobile workforce. To make our Attendance Software & Leave Management and Tracking Features feature's even more robust. Depending on your requirements, you have the flexibility to choose one of two awesome fingerprint machines.

### **Standalone Fingerprint Time Management & Attendance Software cum Access Control**

Fingerprint time attendance system with access control battery backup features that not only allows you to log in and out times of your employees. It stores 1000 fingerprint templates, 50000 transaction records, and features battery backup.

### **There are different models of Biometric fingerprint Attendance System, but the most common of them all is**

- \* Thumb / Fingerprint Enrollment & Verification
- \* Option for RFID Card attendance for backward or backup support Option for Password based attendance for rare use.
- \* Some Thumb / Fingerprint Machines support TCP/IP Connections, USB Cables & USB Pen Drive Connection ports.
- \* Some Thumb / Fingerprint Systems Support Excel File support in USB Pen Drive.
- \* Some Fingerprint Time Attendance System comes with Free Attendance & Payroll Software.
- \* If you want to setup or develop your own custom software for attendance and payroll then the SDK can also be made available.
- \* Generally we provide one year warranty with all the Biometric Fingerprint time attendance machine and more ....
- \* Sending SMS In-Out time to parents so can they feel relaxed.
